Empower Through Employment

Support Through Training and Needs Assessments

- Training for Medical Providers and Military Liaisons
 - Review CAP process of delivery for assessments and AT throughout recovery and rehabilitation.
 - Review and demonstrate available AT.
 - Identify methods to integrate AT into rehabilitative services and settings using best practice partnerships and training models.
- Needs Assessments
 - Conduct individual needs assessments for each wounded service member.

Needs Assessments: Process

- Focus on the Service Member
 - Diagnosis and prognosis
 - Functional limitations
 - Familiarity and comfort level with IT and AT
 - Current/future health care *and* career plans
 - How does diagnosis impact/limit ability to perform daily tasks?
- Analyze Computer and/or Telecommunication Access
 - Does the SM have access to a computer at the MTF? Home?
 - Is the SM using the computer daily? How long per day?
 - What are typical tasks during the day?
 - What are the specifications of the computer?

Needs Assessments: Process

- Focus on the Service Member
- Analyze Computer and/or Telecommunication Access
- Identify Accommodations
 - Selection and procurement of accommodations
 - Prevent exacerbation of secondary conditions
 - Compatibility with agency networks and security
 - Training on use of AT
 - Feedback
 - Did the accommodation meet your expectations?
 - Did the accommodation fill your needs?
